

Using the BraillePen Write Keymap

The tables below contain all the default keystroke assignments for BraillePen Write for the US Standard keyboard in Windows. Unused combinations are provided in the file [available-keystrokes.txt](#).

The Joystick and Pan Keys are only available on BraillePen 12. These keys add many, many combinations to the possible keystrokes. These keystrokes are provided in the file [BP12 remaining keystrokes.txt](#).

Both these files can be downloaded from the BraillePen website, and are available on the BraillePen CD supplied after May 31 2011.
